INSTALLATION GUIDELINES

Protect the paint coat from damage during installation. Reject any damaged components. Any dirt should be removed from the surfaces using water and non-abrasive cloth. Wet materials, such as sealing slurry or tile adhesive should be removed from the outer surfaces before drying. The manufacturer shall not be liable for any damage resulting from product misuse or using inadequate auxiliary materials or tools. All work must be in compliance with construction plans, product data sheet, relevant standards, good construction practice and safety requirements.

MAINTENANCE GUIDELINES

For cleaning use clean water with some detergent. Do not use highly acidic or high alkaline cleaners or surfactants, which may react with aluminium. Do not use organic solvents containing esters, ketones, aromatic compounds, glycol esters, chlorinated hydrocarbons, etc. After cleaning rinse the surfaces with cold clean water. In winter do not use salt or other de-icing chemicals. We recommend to check the condition of the relevant terrace, patio and balcony components every six months. Immediately remove any discovered defects.
